

Dell Desktop: Exit Reset Process Guide

Step 1: Force Stop the Reset

Press and hold the system unit (CPU box) power button for 10–15 seconds until the computer turns off.

Step 2: Wait

Wait for 10–20 seconds before turning it back on.

Step 3: Turn On the Computer

Press the power button once to start the computer.

Step 4: Choose Correct Option

If you see 'Continue' or 'Exit and continue to Windows', use arrow keys and press Enter.

Step 5: If Reset Continues

If 'Resetting this PC' appears, repeat the force shutdown process 1–2 times.

Step 6: If Blue Screen Appears

Select Troubleshoot → Advanced options → Startup Settings → Press 4 to start Windows normally.

Step 7: If Nothing Works

Allow the reset to complete. The system will return to a fresh working state.
